

Distinguish, differentiate, compare and explain what is the difference between Cytokinesis and Karyokinesis. Comparison and Differences.

## **Difference between Cytokinesis and Karyokinesis**

1. Cytokinesis is the division of the cytoplasm of a cell. Karyokinesis is the division of the nucleus of a cell.
2. Cytokinesis occurs at the end of M-phase, after the nuclear division is over. Karyokinesis occurs during M-phase of cell cycle before the cytokinesis begins to proceed.
