

Write down what are the main Similarities between Equation and Inequalities or Similarities between Inequalities and Equation

## **Similarities between Equation and Inequalities**

1. In both, the equation and inequalities, adding and subtracting negative numbers have no effects on the symbol.
2. In both the inequalities and equations, the major goal is to isolate the variable.
3. In both, what do you do to one side, has to be done on the other side.
4. Both can represent problem situations.

Steady Run
